EPER data of Romania !

(26 March 2008)

Romania has voluntarily decided to provide a report containing EPER emissions data for the year 2005 according to Article 1.2 and 1.3 of the EPER 2000/479/EC Decision. This is the first version of the Romanian National EPER and it includes 260 EPER facilities representing approximately 40% of the total number of 638 IPPC installations inventoried.

In 2005, first reporting year, a large proportion of EPER facilities is in the Energy sector (42 facilities) and in the Intense livestock farming sector (120 facilities).
